About me

Specialized in translating **complex data** into **product decisions** with measurable business impact. **Data-driven** approach and empathetic design optimizing user **experience and accessibility**.

Recent professional experience

Data Quality & Governance Analyst | itti | 09/2024 - 11/2026 | Remote from Croatia

Managed end-to-end domain quality (Qualitti & AWS Glue) by leveraging metadata for automated validations, QuickSight health dashboards, Jira control workflows, and Slack alerts.

Data Quality Sr. Management Associate | Avaya | 08/2023 - 08/2024

Software auditing and automation using Power Platform and SAP. Quality control and code repository analysis via Jira, Bamboo, Jenkins, SonarQube, and Black Duck Hub.

Logistics & Document Control Analyst | Grupo Mirgor | 06/2022 - 07/2023

Managed document control and foreign trade (FX) operations while supporting Procurement. Developed Power BI dashboards and conducted file processing tests in SAP development environments.

Transaction Processing Analyst | Accenture | 05/2019 - 10/2020

Global master data administration in SAP with test and production validation. Managed financial structures, mass data loads, and global profit center updates.

Credit & Collection - Treasury Analyst | Kimberly-Clark | 06/2012 - 12/2018

Collections, cash flow, and foreign trade (FX) management. Automated bank reconciliations through a Collections Portal, achieving 95% automated processing.
